Basic Plesk Control Panel Information

1. To get to your Plesk Control Panel for your hosting with Widomaker, use the following in the address bar of your Browser (i.e. Internet Explorer, Firefox):

-	_	_	-		
https://w	www.your	domainr	amehe	erel.com:	84437

Please note, yes there is an 's' for secure login. Also, www.yourdomainnamehere.tld is your domain name, replace this with that information. (example: www.mycutekitty.com)

When you start to load the page, this warning will come up. Click YES (may be different in Firefox)

Securit	y Ale	ert 🔀	
£	Information you exchange with this site cannot be viewed or changed by others. However, there is a problem with the site's security certificate.		
		The security certificate was issued by a company you have not chosen to trust. View the certificate to determine whether you want to trust the certifying authority.	
		The security certificate has expired or is not yet valid.	
		The name on the security certificate is invalid or does not match the name of the site	
	Doj	you want to proceed?	
		Yes No Yiew Certificate	

2. You will then see the login page. Enter your 'username and password'. Then click 'LOGIN'. Then you will see the tools available.

Login To Pl	esk 7.5 Reloaded
Enter the login name into "Login Then click "Login".	" and password into the "Password" fields respectively.
Login	username
Password	•••••
Interface language	User default
Forgot your password?	Login

Note: for your domain name to be able to point to our servers, you MUST change the DNS (Domain Name Server) entries with your registrar.

Widomaker DNS: ns.widomaker.com ns2.widomaker.com

3. Once logged in, you can access your domain by clicking on the domain name you see setup in the Control Panel.
